

TYPICAL BEND

TYPICAL CROSS SECTION

MINIMUM BEARING SURFACE AREA (SQ. FT.)					
PIPE	BENDS				TEE OR DEAD
SIZE	11 1/4°	22 1/2*	45°	90.	END
6"	1.0	1.5	2.5	4.5	3.5
8"	1.5	2.5	4.5	8.0	5.5
12"	3.0	4.5	9.0	16.5	12.0

GENERAL NOTES:

- 1. Bearing surface areas shown in chart are minimum.
- 2. All fittings to be wrapped with polyethylene.
- Pipe installed under conditions different from those normally encountered shall require thrust blocks designed for those particular conditions.
- Thrust blocks on pipe larger than 12" shall be designed for conditions existing at the installation site.
- 5. Refer to Section 03300 for concrete requirements.
